INSTRUCTIONS

Make sure that imperfection is completely dried/cured. Proceed with either or both of the following techniques. Place suitable stencil shape over imperfection. Hold FLAT and FIRMLY in place with fingers or masking tape:

TECHNIQUE 1 - RAZOR BLADE

1. Shave with single edge razor blade at 20° to the exposed imperfection.
2. Remove stencil and store in sleeve for re-use.

TECHNIQUE 2 - SANDER

1. Sand flat across stencil body, removing both metallic stencil material and imperfection.
2. Do not let sandpaper travel outside of the edges of the stencil.
3. Remove stencil and feather repair as needed.
4. Remove stencil and store in sleeve for re-use. Wipe off metallic dust and polish repair area.
