Mark E. Charpie
Regulatory Manager
DeVILBISS Automotive Refinishing
11360 S. Airfield Road
Swanton, OH 43558

Dear Mr. Charpie:

Approval of ITW Tekna Spray Gun with 7E7 Air Cap

In response to your letter dated December 11, 2008, regarding approval of the above-subject spray gun, the Shasta County Air Quality Management District (District) offers the following as official approval:

Shasta County Air Quality Management District will authorize the use of any spray-coating equipment that can demonstrate at least 65 percent transfer efficiency under the conditions of its use. The material contained in the Final Report Evaluation of the Devilbiss CVI, GTI Pro and ITW Tekna High Efficiency (HE) Spray guns for use in the South Coast Air Quality Management District by the Process Technologies Group dated May 2008, that you provided with your letter, indicates that the ITW Tekna Spray Gun with 7E7 Air Cap is capable of meeting this standard. Therefore, the Shasta County Air Quality Management District will authorize the use of this gun for automotive refinishing in Shasta County subject to the same conditions as those mentioned by the South Coast Air Quality Management District in their letter dated December 9, 2008.

Should you have any questions regarding this authorization please feel free to call me at the District (530) 225-5674 or e-mail me at rebell@co.shasta.ca.us.

Sincerely,

Ross Bell
Air Quality District Manager
