Attention: Mr. Mark Charpie
Engineering Manager

Dear Sir:

Re: Use of DeVilbiss "Plus" Spray Gun in the Greater Vancouver Regional District

Further to your recent correspondence and discussions with Mr. Don Miller of my staff, the DeVilbiss GFG-670 "Plus" spray gun is hereby designated as equivalent to a High-volume Low-pressure spray system. This equipment may now be used in the Greater Vancouver Regional District subject to the following conditions:

- Only fluid tips of 1.2, 1.3 and 1.4 mm may be used.
- Air pressure at the centre of the air cap must not exceed 40 pounds per square inch gauge.
- All other requirements of the Emission Regulation for Automotive Refinishing are to be met.

Please advise all of your customers operating within the GVRD of these conditions for use. If you have any other questions or comments, please contact Mr. Miller at (604) 436-6890.

Yours truly,

Nancy Knight
District Director
