RE: DeVilbiss Spray Guns Approval for District Rule 4612

Dear Mr. Hofert:

The San Joaquin Valley Air Pollution Control District (District) has received your request for approval to sell the DeVilbiss TEKNA Pro and TEKNA Pro Lite spray guns within the jurisdiction of the District. We have reviewed the test results you submitted to the United States Environmental Protection Agency (USEPA) and their approval of the spray gun. Based on this review, we have determined that the DeVilbiss TEKNA Pro and TEKNA Pro Lite spray guns are approved for use under District Rule 4612, Motor Vehicle and Mobile Equipment Coating Operations – Phase II, pursuant to Section 5.8.4. As of December 31, 2008 District Rule 4612 supercedes all provisions of District Rule 4602, Motor Vehicle and Mobile Equipment Coating Operations. This approval is subject to the following conditions, consistent with the USEPA’s approval:

1. DeVilbiss Automotive Refinishing shall supply written notification with each DeVilbiss TEKNA Pro and TEKNA Pro Lite spray gun sold or distributed for use within the jurisdiction of the San Joaquin Valley Air Pollution Control District that the spray gun is only approved for the application of color coatings and clear coatings subject to Rule 4612.
2. This approval is only valid for the DeVilbiss spray guns if the air pressure supplied is equal to or less than that stated for each spray gun below:

TEKNA Pro spray gun with TE10 air cap	35 psig
TEKNA ProLite spray gun with TE10 air cap	35 psig
TEKNA Pro spray gun with TE20 air cap	26 psig
TEKNA ProLite spray gun with TE20 air cap	26 psig

Additionally, DeVilbiss Automotive Refinishing shall supply written notification with each DeVilbiss spray gun sold or distributed that the maximum air pressure supplied to the spray gun shall not exceed the values stated above for each spray gun for the application of color coatings and clear coatings subject to Rule 4612.

3. DeVilbiss Automotive Refinishing shall supply an appropriate pressure gauge to allow precise measurement of the inlet air pressure, reflecting the maximum air pressure for the specific gun, with each DeVilbiss spray gun sold or distributed for the application of color coatings and clear coatings subject to Rule 4612. DeVilbiss Automotive Refinishing shall supply written notification with each DeVilbiss spray gun sold or distributed that the pressure gauge shall be attached to the spray gun and be in good working condition wherever the spray gun is in operation for the application of color coatings and clear coatings subject to Rule 4612.
4. This approval is only valid if during actual operation the DeVilbiss spray gun is equipped with a properly operating pressure gauge as described in condition number 3 and operated at or below the operating pressures as listed in condition number 2. Any modification of the spray gun or pressure gauge design shall invalidate this approval unless the modification is approved by the San Joaquin Valley Air Pollution Control District.

This approval letter supercedes all previous DeVilbiss TENKA Pro and TENKA Pro Lite spray gun determinations. Should you have any questions regarding this approval, please contact Jim Swaney of Permit Services at (559) 230-5900 or by e-mail at jim.swaney@valleyair.org.

Sincerely,

David Warner
Director of Permit Services
